Frontend Developer

PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building scalable, production-grade web applications using React and Next.js. Skilled in designing intuitive user interfaces, optimizing performance, and integrating backend and AI-powered services. Recently focused on developing AI-driven features and agents using LLM APIs to create intelligent, user-centric workflows. Passionate about delivering clean, high-quality code and collaborating with cross-functional teams in fast-paced environments.

PROFESSIONAL EXPERIENCE

Frontend Developer | AI Agent Developer (Freelance) 12/2025 – Present

Self-employed—Abu Dhabi, UAE

- Built a multi-tenant WhatsApp SaaS customer service platform using Next.js, Python, PostgreSQL, Claude API, and Docker, deployed to production on Vercel.
- Designed and developed a personal portfolio site with an AI-powered blog generator using Anthropic Claude API, MongoDB, and Vercel Cron Jobs.
- Developed AI-powered agents and automation workflows integrating LLM APIs to solve real business use cases for clients.
- Delivered full-stack applications end-to-end from UI design to backend APIs and cloud deployment using Next.js, TypeScript, Node.js, and Python.

Frontend Developer

07/2024 – 06/2025

Zane Technology—United States, Remote

- Led the implementation of Redux state management, standardizing data flow and improving scalability and maintainability across the frontend architecture.
- Developed and maintained scalable web applications using React and TypeScript, delivering high-performance and responsive user interfaces.
- Designed reusable UI components and optimized application performance to enhance user experience and reduce technical debt.
- Deployed and managed frontend applications on AWS (S3, CloudFront), improving load speed and ensuring reliable production releases.

Frontend Developer

08/2022 – 05/2024

Grand Block Technologies LLC—Dubai, UAE

- Built and maintained scalable web applications using Next.js, TypeScript, and Tailwind CSS, delivering responsive and user-focused interfaces.
- Spearheaded the development of React-based dashboards to manage and curate mobile application content, improving internal workflow efficiency.
- Implemented reusable components and frontend best practices, enhancing code quality, maintainability, and development speed.
- Collaborated closely with backend and product teams to translate business requirements into reliable, production-ready features.

Full Stack Developer

01/2020 – 08/2022

Fi Company—Khartoum, Sudan

- Developed responsive web applications using React.js, JavaScript, and Bootstrap, delivering consistent user experiences across desktop and mobile devices.
- Designed and implemented RESTful APIs using Python (Django) and Golang, improving backend performance and ensuring efficient frontend–backend integration.
- Optimized database operations with MariaDB and improved data retrieval efficiency for high-usage features.
- Deployed and maintained web applications on Linux servers, managing production environments and ensuring reliable system performance.

EDUCATION

Al-Zaiem Al-Azhari University - Khartoum, Sudan

Bachelor of Science in Computer Science and Information Technology - IT, September 2018

PROFESSIONAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Material UI, React Testing Library
- **Backend (Supporting):** Node.js, RESTful APIs, Python (FastAPI, Django)
- **AI & LLMs:** Anthropic Claude API, OpenAI API, AI agent development, prompt engineering
- **Databases:** MySQL, MariaDB, MongoDB, PostgreSQL
- **Cloud & DevOps:** AWS (S3, EC2, CloudFront), Docker, GitHub Actions, CI/CD, Vercel
- **Tools:** Git, GitHub, Linux, Bash

LANGUAGE COMPETENCIES

- **Arabic** (Native).
- **English** (Limited working proficiency).
